Make a ring from a folded one-dollar bill!
 Just follow the instructions below.

① Place a \$1 bill face up. Fold in the top and bottom margins.

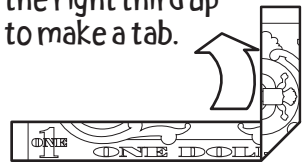

② Fold the bill in half.

③ Turn the bill over and fold it in half again.

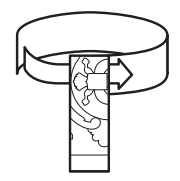

④ With the bottom "ONE DOLLAR" showing, fold the right third up to make a tab.

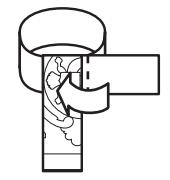

⑤ Wrap the upward tab around the back of bill so it is now facing down.

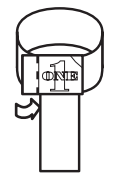

⑥ Turn the bill over and make a loop, passing the long end under the tab sticking down.

⑦ Take the short part that's sticking out to the right and fold it over to the left.

⑧ Make sure the "ONE" is centered. Tuck the left end underneath the "gem."

⑨ Fold the tab that's sticking down up through the ring and tuck it under the "gem."
